WELCOME TO HERCEG NOVI

There are cities much older than Herceg-Novi.
There are more beautiful and luxurious locations.
There are cities that we might long for, as something clandestine, unattainable, unreachable...
However, there is no city so easy to belong to as **HERCEG NOVI!**

he poet might say:

*"Here one lives from sunshine,
because of sunshine, for sunshine..."
That is why I came and stayed in this town. ..*

HERCEG NOVI – is located at a strategic and attractive geographic area between the highest mountain of the Dinaric masiv – Orjen (1.895m.) and the entrance of one of the most beautiful bays in the world – the BAY OF KOTOR (Boka Kotorska).

It represents an administrative, economic and cultural center of the municipality, covering an area of 235 km², with over 42.000 inhabitants. The city alone has about 20.000 inhabitants.

HISTORY – Rich monumental legacy in the area of Herceg Novi resulted from the merging of different peoples and cultures that lived and clashed here through its long history: Ilirians, Roman Empires, Byzantium in the 7th Slovenian tribes. The city of Herceg Novi was founded in 1282. The Turks conquered in 1482, after the Turkish rule, the city was conquered by the Venetians, Austrians, Russians, French; from 1814-1918 the city was under the Austro – Hungarian administration. And 1923 the Bay of Boka precinct was annexed to Yugoslavia.

CULTURAL MONUMENTS – Sacral monuments hold the first place in immobile monumental fund of the Herceg Novi – 89 churches: 75 orthodox and 14 catholic – monastery Savina, St. Michael the Archangel church, St. Jerome church, St. Ana church, St. George church, St. Anthony church...

Fortresses: Spanjola (15th century), Kanli kula (16th century), Forte mare (Sea Fortress – 14th century), Citadela, Sat kula...

FLORA – The area of the Bay of Kotor is characterized by a Mediterranean climate. Herceg Novi and its Riviera possess an incredibly rich and multifarious horticultural potential due to favorable climate and geographic location – our city encompasses over 250 types of different exotic plants originating from all continents: mimosa, agave, magnolia, eucalyptus, araucaria...

IGALO – CENTRE FOR RESTING, RECREATION AND MEDICAL TREATMENT – is a hotel complex. In the CENTRE there is an equipment for complex medical treatment in the fields of physical medicine together with the natural factors, have created conditions for healing of some diseases for which IGALO had become famous in the whole Europe and worldwide.
